

## Chapter 10

### Water

All living things need water.

People, animals and plants need water to stay alive.

All living things need water to live. Water has many uses.

We need water to drink.

We need water to cook food.

We need water to put out fire.

**We use water for cooking**

**We use water for washing clothes**

**We use water for bathing.**

**We use water for putting out fire.**

**We wash utensils with water.**

## Sources of Water

We also get water from rain, rivers, lakes, ponds, seas etc.

Rain

Sea

River

Pond

We also get water from underground. We dug well and handpumps to get underground water.

Well

Handpump

Tubewell

## We must drink pure water

We must always drink clean water.

Drinking impure water can make us sick.

If water is not pure, we must boil it. We can filter water to make it pure.

a water purifier
