

Chapter 5 Our Body

My body has many parts. Each part of our body has a different name and function.

Our legs help us to walk, play, run and skip.

Our hands help us to hold things, to eat, write and to clap.

Sense of organs

We have five sense organs. They help us to do different things. Eyes, ears, nose, tongue and skin are the sense organs.

Eyes help us to see and read.

We smell with our nose.

The tongue help us to taste.

Ears help us to different sounds.

Skin help us to feel and touch

These sense organs help us to know the world around us.

A Glance on Terms

- Sense Organs** : eyes, nose, ears, tongue and skin.
Senses : sight, smell, hearing, taste, and touch.
