

Chapter 7

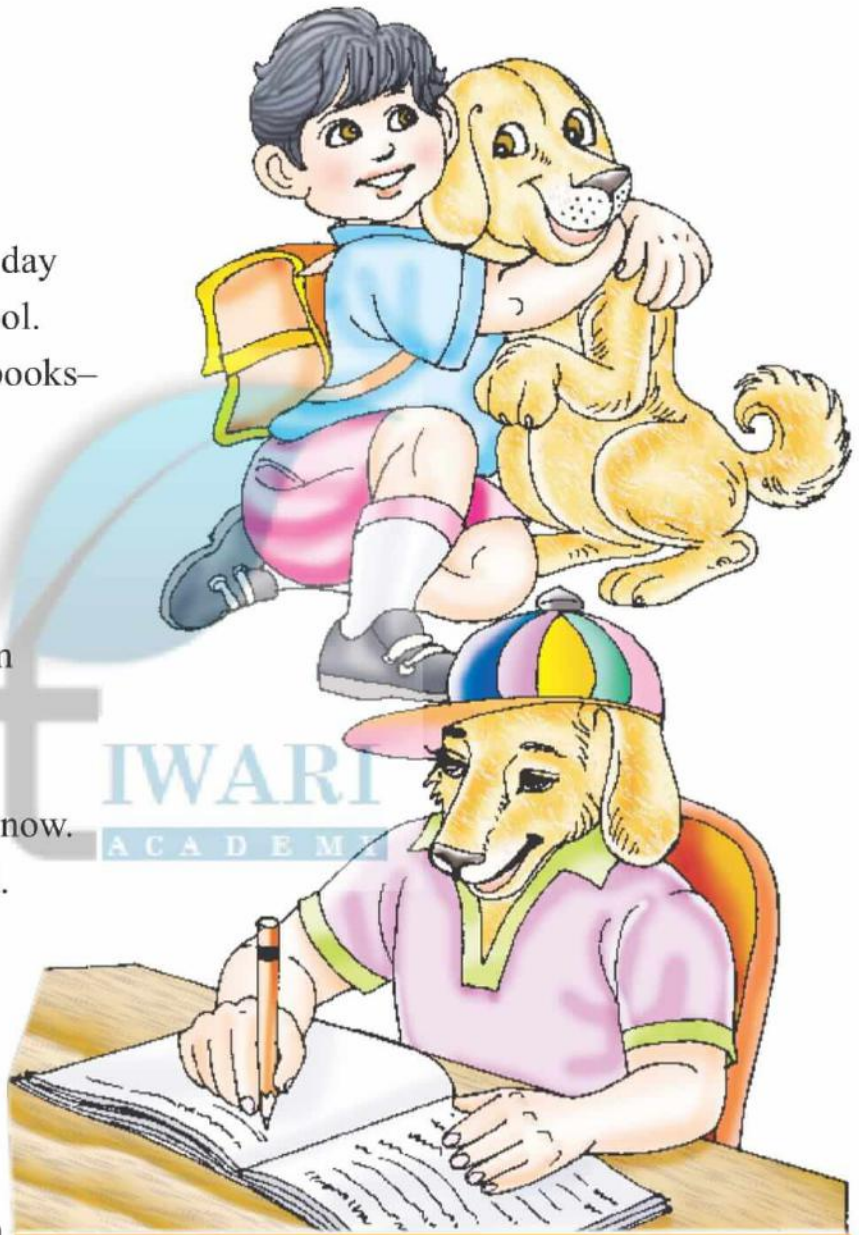

Freddie

I don't like doing homework,
I know that it will bore me.
But now I am much happier
Cause Freddie does it for me!

He greets me at the door each day
When I come home from school.
He just can't wait to read my books—
I think that's pretty cool!

I give him all my home work,
Like history and math.
And when he's done I give him
A nice warm bubble bath!

My grades are so much better now.
Which makes my parents glad.
Freddie is the smartest dog
That I have ever had!
