2. Read the following passage.**[5x1 = 5]**

Frogs are interesting animals because they can live both on land and in water. A young frog begins life as a tadpole and swims in water. As it grows, it develops legs and becomes an adult frog. Frogs use their long, sticky tongues to catch insects. Their webbed feet help them swim, while their colours can help them hide among plants and grass. Frogs also make croaking sounds. They need damp places to live and are often seen after rain.

(A) Where does a young frog live?

- | | |
|-------------------------|----------------|
| (i) Only on trees | (ii) In water |
| (iii) Only in dry grass | (iv) In a cage |

(B) What does a tadpole develop as it grows?
