(Class – IX)

Exercise 3.1

Write the correct answer in each of the following:

Question 24:

The perpendicular distance of the point P (3, 4) from the y – axis is

- (A) 3 (B) 4
(C) 5 (D) 7

Answer 24:

- (D) 7

Solution:

We know that, abscissa or the x-coordinate of a point is its perpendicular distance from the y – axis. So, perpendicular distance of the point P(3, 4) from Y- axis = Abscissa = 3
