(Class – X)

## Exercise 13.1

Choose the correct answer from the given four options:

### Question 14:

An event is very unlikely to happen. Its probability is closest to

- (A) 0.0001                      (B) 0.001                      (C) 0.01                      (D) 0.1

### Answer 14:

- (A) 0.0001

### Solution:

If an event is very unlikely to happen, its probability should be quite small.

Hence, the option (A) is correct.
